REFLECTOLAB PLUS N-P-K

TO MEASURE  TO KNOW

General

The Reflectolab plus is a complete suitcase for the analysis of N – P – K in water or soil e.g.. The Reflectolab plus measures both Reflectoquant® test strips and Reflectoquant® plus cell tests, which means that Potassium can be analyzed in the range 1-25 mg/l. Standard the following tests are included in the Reflectolab plus; Potassium (for 100 tests) range: 1-25 mg/l, Nitrate (for 50 tests) range: 5-225 mg/l and for Phosphate (for 50 tests) range: 5-120 mg/l.

When the tests/ strips are consumed new tests/ strips can be ordered from Nieuwkoop BV or your own supplier.

Other ranges or parameters are also available on request.

De reflectometer RQflex plus

Within few seconds, the reflectometer RQflex plus evaluates either test strips or cell tests quantitatively just by exchanging the measurement chamber. Using modern barcode technology five different methods can be stored. Furthermore, the instrument can store up to 50 measurement results

The following parameters can be analyzed in water, soil, leafs e.g.:

Aluminium, Ammonium, Ascorbic acid, Calcium, Chloride, Chlorine, Chromate, Cobalt, Copper, Cyanide, Fixing bath, Formaldehyde, Glucose, Iron, Lead, Lipase, Manganese, Magnesium, Molybdenum, Nickel, Nitrate, Nitrite, Peracetic acid, Peroxide, Phosphate, Potassium, Sulphite
