CB1030

NITRATE METER

TO MEASURE  TO KNOW

General

The CB1030 is a reflectometer which offers a fast, portable and affordable means of establishing the nitrate levels in soil, plant and water.

The CB1030 measures the Mquant nitrate teststrips (CB2100).

The meter is supplied in a handy case and including 100 teststrips.

When all strips are used, it is simple to order them at Nieuwkoop or your own supplier.

Results in just 60 seconds!

Specifications

Measuring range: 5 – 500 ppm

Accuracy: $\pm 10\%$ after setting the correction factor

Memory: last 20 measurements with date and time

Contents case:

- nitrate meter
- 100 nitrate strips
- cleaning brush
- calibration checker strip
- 9 volts battery
- manual

Afmetingen: 152 x 45 x 29 mm (meter)

240 x 215 x 80 mm (case)

Applications

Agriculture, horticulture, environmental, water.

It is widely used by farmers and growers.

The meter has been tested for a long time in various research institutes and academies.
